Epic challenges.

Challenge your friends

With 7 exciting games to try, there's something for everyone. Go for the big score with High Striker, knock out your opponents with Killer, hit the target with Høggern, hone your accuracy with Shanghai, train up the newbies with 201 and, of course, take on the classic 501.

Meet the games

High Striker

Get a better score than the previous player or lose one life. When all your biceps are gone you're out. Last player standing wins the game.

501

The classic game of 501 is all about going from 501 to zero points fastest - only snag is that the last arrow has to be a double, and you have to hit exactly zero.

SHANGHAI

A good aim is important in darts, but in Shanghai it's essential. This game is all about getting the highest score at the end of 7 rounds. To win, you must hit the number presented each round. Round 1, number 1. Round 2, number 2. You get the drill. But to get the instant winning Shanghai, you must hit a single, double AND triple in just one round! Easy-peasy.

Killer

Hit your assigned target to get a shield. Get three shields and become a killer with a sword, then knock out your opponents! Last player standing is crowned the winner.

Hogger

Accuracy and luck is the name of the game! Score the most points through 9 rounds and you'll be named the winner. But if you don't hit the mark, the axe will come down hard - chopping your score in half!
